NEVASTANE Greases Certificate

To whom it may concern,

TOTAL certifies that:

- NEVASTANE greases* are products of petrochemical origin.
- NEVASTANE greases are NSF H1 registered. Therefore, these products are acceptable as lubricants with incidental food contact (H1) for use in and around food processing areas.
- NEVASTANE greases are not exposed to products of animal origin during manufacturing and handling and do not present any of the potential risks associated to products of animal origin, especially those regarding contamination by Bovine Spongiform Encephalopathy (BSE) or Transmissible Spongiform Encephalopathy (TSE).
- NEVASTANE greases are free of genetically modified organisms (GMO) in compliance with the European regulations 1829/2003/EC and 1830/2003/EC.
- NEVASTANE greases do not contain any allergenic food ingredients in compliance with the Directive 2007/68/EC amending the Annex IIIa to Directive 2000/13/EC
- The composition of the NEVASTANE greases* do not include the substances listed below:
 - Ethanol (the only drinkable alcohol)
 - Heavy metals (Pb, Cd, Cr, Hg)
 - Polychlorinated biphenyls (PCB)
 - Polychlorinated Naphthalenes (PCN)
 - Chlorinated paraffins (CP)
 - Chlorinated organic insecticides
 - Polybrominated biphenyls (PBB)
 - Polybrominated diphenylethers (PBDE)
 - Organotin compounds
 - Asbestos
 - Azo compounds
 - Formaldehyde
 - CFCs, HCFCs
 - Pentachlorophenol (PCP)
 - Aromatic amines
 - Creosotes
 - Tar oils
 - CMR, category 1 or 2
 - Arsenic
 - Flourine
 - Cyanhydric Acid
 - Dioxins PCDD, PCDF, and PCB

Furthermore, based on our knowledge of the raw materials and the product processes, the aforementioned substances would not be expected to be present in significant quantities.

(*) NEVASTANE greases include the following products: NEVASTANE HT/AW 00, NEVASTANE HT/AW 0, NEVASTANE HT/AW 1, NEVASTANE HT/AW 2, NEVASTANE SFG 1, NEVASTANE SFG 2, NEVASTANE HD2T and NEVASTANE HPX.

Yours Sincerely,

Guillaume Schaeffer
Product Manager
